### **Parking and Safety Reminder**

Once again, we are having to write to you following yet another incident involving inconsiderate parking and our neighbours.

We are aware that all schools have parking issues during these times of the day but could we remind you to only park where you are permitted to and please take extra care and consideration of those around you when you are parking. It is unacceptable to argue with, threaten members of our local community and use abusive language towards them. This is a negative reflection on our school and contradicts our mission statement.

It is an offence to park on private properties and if members of the public ask you to move from their private residence please do so, or better still don't park there in the first place. Some of our local residents are vulnerable and may need urgent access to and from their homes.

May we also remind you that:

- Parents are NOT allowed to park on the school site at any time of the day. This is for everybody's safety and includes picking children up from after school clubs.
- Parents dropping off their children at the reception gate please use the pedestrian path when you are coming in and out and be extra vigilant when you are crossing the drive where cars turn in.
- Please cross with Bob and not at different points along the Feltham Hill Road.

Miss Knipe  
Deputy Head
